Extra Practice Q - T5

Use `selenium` to perform the following webscraping tasks:

1. Go to `"https://humblebundle.com"`
2. In the Search box, type `"Python"` and search
3. In the new page, sort the results by alphabetical order
4. Download the image of the first result (Hint: `requests` is useful here)
5. Click on the image and access the details of the book
6. Toggle the `"Read More..."` in description
7. Extract the text after `"Who this book is for"`

Note: This website often offers good discounts/cheap bundles of tech books (and games).
